

COVID Health Guidelines for Show Attendees

as approved by local health authorities for LEC Fairgrounds re-opening as of January 11, 2021

- **Arrive healthy**
 - no one should attend that feels ill or been around others that have been ill, in process of being tested or have tested positive for COVID-19
- **Be prepared to maintain 6 feet physical distance**
 - Be considerate of others and **try to walk in a way that allows plenty of distancing from others** that are not in your household e.g. in booth aisles, bathrooms, cafe areas, ticket lines
- **Group sizes are limited to 8 people**
 - Seating areas will be set with no more than 8 people permitted in a group.
 - Groups congregating to speak with vendors in booths must be 8 or less people.
- **Use of face coverings is required inside buildings at all times** as well as when outside and 6-foot physical distance can't be consistently maintained with people outside your household.
 - See signs on grounds for latest guidance on where face coverings are required
 - Face coverings will be available at entrances if you need one
 - Face coverings may only be removed temporarily in two situations:
 - Seating Areas will be provided with socially distanced tables & chairs and face coverings may be removed while seated & actively eating for up to 15 minutes.
 - Face coverings are required to stay on while drinking, but may be taken down in between quick sips.
 - If health reasons don't permit you wearing a face covering, we ask that you do not attend shows at LEC fairgrounds at this time.
- **Be respectful and comply with any show staff and LEC staff requests**
 - It takes everyone to participate to help run a healthy show
 - Please understand there may be changes at any time based on changing health situation or unique show needs –we are all figuring out how to get back to attending/participating in events safely together.
- **Follow all CDC pandemic health guidelines** to keep yourself and others healthy such as washing/disinfecting hands often, covering sneezes/coughs with your elbow
 - Sanitizer will be provided throughout the show
 - See more info at: <https://www.cdc.gov/coronavirus/2019-ncov/prevent-getting-sick/prevention.html>
- If you join us for a show at the LEC fairgrounds, we will do everything we can do to keep everyone as safe as possible but you will acknowledge by entering the grounds that there is no way to guarantee your safety during the COVID-19 pandemic. We strongly encourage folks that are encouraged by local health authorities due to their personal health situation to stay home, please do so. Visit www.LancasterEventCenter.org for latest COVID guidelines & show schedule.

- We (LEC fairgrounds staff) will arrive healthy to work with daily health checks (and temperature checks).
- We work in a way to **maintain 6-foot physical distance**.
- We will work with our show promoters to help **pre-adjust, communicate and enforce modified show design** to distancing, group size and space capacity limits that reflect current DHM guidelines.
- We wear **face coverings indoors at all times and outside whenever 6-foot physical distancing is unable to be maintained**.
- We will **reduce shared touch surfaces** and disinfect touch surfaces as much as possible e.g. propping open doors.
- We will provide **extra hand sanitizer and/or hand washing stations**.
- We conduct **extra disinfecting of people spaces** throughout the day and overnight e.g. tables, chairs, door handles, counters, etc.
- We will **modify LEC Fairgrounds Business Office, Cafes and General Store, show entryway hours and processes** to reduce lines, prolonged in-person interaction and formation of groups e.g. more grab and go food options, timed ticket entry for largest shows, more contactless/online ticketing services.
- We will provide **more table/chair areas that will be regularly sanitized**, appropriately spaced and each setup for current maximum group sizes e.g. to be able to sit and relax, to eat & drink, to take a face covering break while actively eating and drinking for posted time limits.
- We will **provide signs** to help remind visitors of latest health guidelines and requirements in particular spaces e.g. entrances, congregating areas etc.
- We will **immediately ask show promoters for assistance** on any health guidelines not being followed.
- And **of course, we will strive to be as friendly and willing as ever to help you have a great show!**
